---

Manager 3.0.1.1603.scr The UPS Logo appears on the UPS package, and the UPS detailed information appears on the face of the shipping label. The label is 5 x 7 inches in size, clear, and the same size as for all UPS packages. Labels are printed to 35 lb.

### **What's New in the?**

View Code: If you are the owner of a shop, you are probably familiar with the concept of barcodes and how they can help you enhance the efficiency of your sales activity. However, making use of this technology software assistance as well, apart from specific hardware components. Fortunately, nowadays there is a wide variety of programs such as Barcode Print Manager that can help you achieve quick results without significant efforts. No setup needed Running this application on your computer does not require you to install it, since simply running its executable component grants you full access to its functions. More so, it does not alter any of your Windows registry entries, nor does it generate additional files or folders on your system without your explicit permission. Cluttered layout Barcode Print Manager comes with a plain interface that features a seemingly messy appearance, which might disconcert some users. On the other hand, advanced PC users might consider this an advantage, since most of the functions are available directly in the main window and can be accessed in no time. This application also features a standard configuration menu, which can be easily accessed by pressing the More Options button on the main window. Among the configurable settings you can find quality, paper source, printer resolution and orientation. Quickly print barcode labels You can use this program if you need a quick, efficient manner to create barcode label designs, manage them and print them directly from your computer. In order to accomplish that, you

---

only need to provide the utility with a series of required parameters, including barcode type, height, thickness, label size, column numbers, horizontal separation size and font color. Generating data can be done by relying on its built-in Data Source tool, which can help you create complex labels by providing you with a set of advanced controls. Handy barcode label tool that can help you create, manage and print your content All in all, Barcode Print Manager is a lightweight application that can assist you in designing barcode labels, manage and print them without considerable effort. It features a rather cluttered user interface that displays most of its functions directly in the main window and integrates a simple configuration menu.
